Participating Lender:

Participating Lender's Address:

Indiana Housing Finance Authority Address:

Dear Sir or Madam:

I am an Indiana Registered Land Surveyor and on June 11, 1997 I made a survey and a physical inspection of the real property at 5831 S. Victor Pike, Bloomington, IN and shown on the accompanying survey entitled: Pt SE $\frac{1}{4}$  of S30-T8N-R1W.

This is to certify that the subject property is not located in a special flood hazard area as established by the Federal Emergency Management Agency, Federal Insurance Administration Flood Hazard Boundary Maps.

## SURVEYOR LOCATION REPORT

This report is designed for use by a Title Insurance Company with residential loan policies. No corner markers were set and the location data herein is based on limited accuracy measurements. Therefore, no liability will be assumed for any use of this data for construction of new improvements or fences.

PROPERTY ADDRESS: 5831 S. Victor Pike, Bloomington, IN

PROPERTY DESCRIPTION: Pt SE¼ of S30-T8N-R1W.

TITLE CO.:

CLIENT I.D. NO.:

I hereby certify to the parties named above that the real estate described herein was inspected under my supervision on the date indicated and that, to the best of my knowledge and belief, this report conforms with the requirements contained in sections 42 through 44 of 865 IAC 1-12 for a surveyor location report.

CERTIFICATION DATE: June 12, 1997

SURVEYOR'S SIGNATURE:

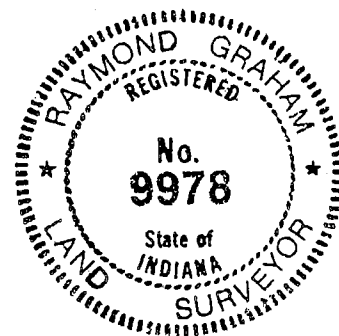

Raymond Graham

PROPOSED LENDER:

PROPOSED BUYER:

OCCUPANT NAME:

SURVEYOR'S JOB NUMBER: 97-360

## SURVEYOR LOCATION REPORT

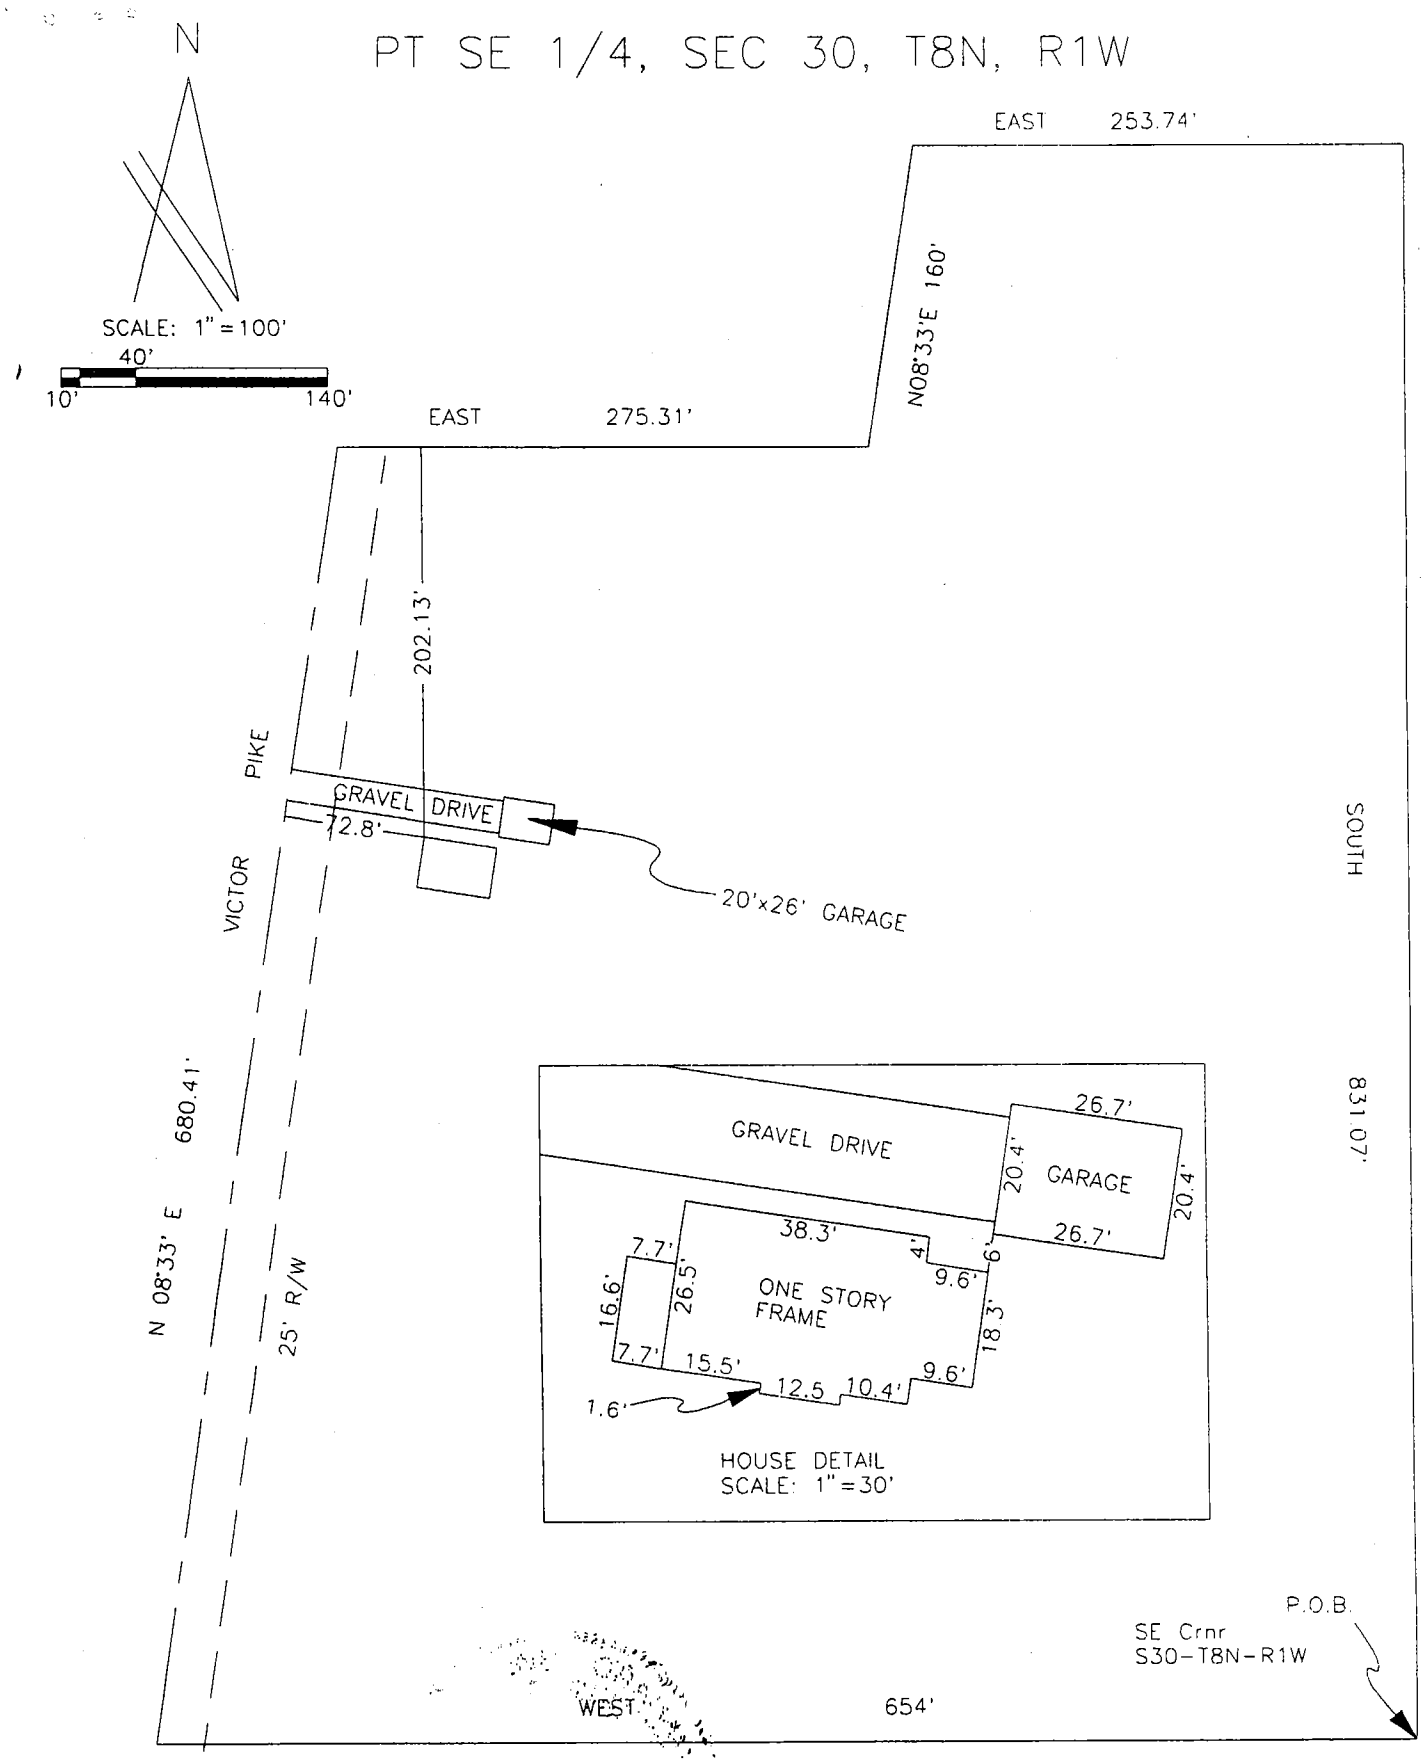

Minimum Requirements 865 IAC 1-12 (formerly 864 IAC 1.1-13)  
Effective August 16, 1991

Surveyor Location Reports are designed for use by a Title Insurance Company with loan policies on small tracts containing a one to four family house even if now used for commercial purposes. No surveyor responsibility is assumed regarding the location or existence of any underground use except that indicated by readily visible surface evidence. The client shall be responsible for providing any title documents other than recorded plats that are required for the report. The instructions for this report are as follows:

1.
  - a. THE REPORT MUST BE DONE ACCORDING TO ITS RECORD DESCRIPTION, if any. No corner markers are required to be set. The uncertainty of location for this report shall not exceed plus or minus one foot on tracts in platted subdivisions, or plus or minus two feet for small unplatted tracts unless otherwise specified and explained on the drawing.
  - b. House locations more than 100 feet from an exterior boundary may be estimated and need not comply with 1-a above.
  - c. Obtaining accurate and complete data on or near the perimeter of larger tracts is beyond the scope of this report. Therefore, on larger tracts, location data for items more than 100 feet from the house may be estimated only and need not comply with item 1-a above and, on such larger tracts, the data required by items 2 through 6 below may be incomplete. (Note: An Indiana Title Survey or other 865 IAC 1-12 survey should be specified for accurate and complete data on larger tracts, if needed.)
2. Briefly describe and show the location of any monuments found and visible evidence of possession including, but not limited to, buildings, fences, hedgerows or other improvements appurtenant to either the surveyed property or the adjoining property. Show these evidence locations by the shortest dimensions to the nearest adjacent boundary lines or any depicted easement lines in order to reveal the extent of any possible encroachments. THE STATEMENT "NO VISIBLE EVIDENCE OF POSSESSION FOUND" MUST BE NOTED ALONG RECORDED BOUNDARY LINES WHERE APPLICABLE.\* (For this purpose, monuments found do not constitute evidence of possession.)
3. Show the location, dimensions, and a brief description of all buildings or structures on the property including, but not limited to, driveways, parking lots and such personal property as above ground swimming pools or yard barns. Show the location of such buildings adjacent to the boundary lines by the shortest distance thereto and dimension any violation of a depicted easement or building setback line. Identify any buildings that appear to have no foundation and may be readily moveable. Show the name of the occupant, if easily available, and any client identification data requested.
4. Show the location of and briefly describe any visible evidence of use by others such as for roadways, utility lines, or driveways or possible joint use of driveways (do not label as "joint" or "common"), which may affect the surveyed tract. Note the name of the user, if marked (for example, joint use by electric, telephone and cable television companies on poles marked with electric company tags.) With respect to any railroad on or adjoining the property, note if the tracks have been removed. If that is the case, note any visible evidence of construction, trenching or other use observed on or along said railroad.
5. Show the location and recording data for any easements or setback lines on the tract as determined from recorded documents provided by the client or from a recorded plat.
6. Show the location of the perimeter of any visible evidence of cemeteries found on the surveyed tract.
7. Show the approximate size, location and brief description of any lakes, ditches, streams on the tract or any known legal drains on or within 75 feet of the property. Detailed locations are required when a boundary is determined thereby or when buildings or other improvements are located within a legal drain easement.
8. Show the location of any road, street, alley or other public way abutting or on the surveyed property with the width of the travelled way, known right of way lines, name, location and source of any known name or right-of-way information indicated. If not known, note which records, if any, were searched. PHYSICAL ACCESS TO THE PROPERTY, OR LACK THEREOF, MUST BE SHOWN.
9. Show the drawing scale, a north arrow, property description and address, surveyor's job number, company name, certificate, signature, and seal, client name, and the names of those to whom the report is certified.
10. Show a report/certificate date less than thirty (30) days from date of delivery.
11. The minimum acceptable Surveyor's certificate is shown above (on page 1 of 2). The content and format shall be as shown above, but the type size and spacing may be altered to suit, so long as the finished form is neat and clearly legible. The size of the sheet or sheets for reports shall be no less than 8 1/2 inches by 11 inches and no greater than 11 inches by 17 inches. The surveyor's firm name, address and phone number may be shown at the top or bottom margin.

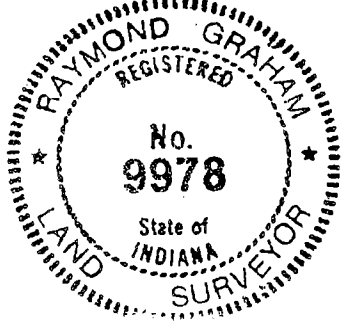

RIGHT-OF-WAY STATEMENT: Any road, street, or other right-of-way information shown herein affecting platted lots was taken from the recorded plat of subdivision containing such lots. Right-of-way information affecting unplatted tracts was not researched unless otherwise noted.

\* NOTE: Unless otherwise noted, no substantial physical evidence was observed along perimeter lines of surveyed tract, except in the case of larger tracts per item 1-c above.

A part of the Southeast quarter of Section 30, Township 8 North, Range 1 West, Monroe County, Indiana, bounded and described as follows: Beginning at a point which is 918.92 feet West of the Southeast corner of the South quarter of said Section 30, thence West along the South line of said Section 30 for 654 feet and to the centerline of Victor Pike, thence North 08 degrees 33 minutes East along said centerline 680.41 feet, thence leaving said centerline East 275.31 feet, thence North 08 degrees 33 minutes East 160 feet, thence East 253.74 feet, thence South 831.07 feet and to the point of beginning. Containing in all 10.29 acres.

Description from legal; no field survey.
